**Subject:** Cargill's back on the attack...

Leaked Memo-what you can do  
Stay up to date! [Add updates@savesfbay.org to your address book](mailto:updates@savesfbay.org)

Sylvia, can you believe these guys? Agribusiness giant Cargill is continuing to push for destructive bay fill development in Redwood City, by gutting federal water protection law. Our Bay is once again at risk from its reckless plan to pave over restorable salt ponds—and **we have to stop them.**

**[Your ongoing support to Save The Bay is critical to thwarting Cargill's latest attack. Will you make an urgent contribution right away?](#)**

**A leaked federal document shows Cargill lobbyists have swayed a U.S. Army Corps of Engineers lawyer to rewrite the Clean Water Act for its benefit. If we don't act, Cargill's ponds will be exempt from federal legal protection!**

Sylvia, you and I know pollution and shoreline development are big threats to the Bay. We need strong federal law to keep our water and wetlands clean and healthy here and nationwide. Cargill shouldn't be exempt from the law!

**[Your generous gift today will help us convince the U.S. Environmental Protection Agency to block Cargill's ploy and keep the law intact.](#)**

The San Francisco Bay is a true natural treasure, and we simply cannot let Cargill ignore the concerns of Bay Area residents. Cargill is willing to blow up the Clean Water Act to see its ambition of paving the Bay come to fruition. Local residents like you have stopped Cargill before

– we need you to help stand up for San Francisco Bay today.

**Please, help us stop Cargill again. We need your tax-deductible contribution now more than ever.**

Sincerely,

David Lewis  
Executive Director

P.S. You have the power to prevent Cargill from filling in our Bay. **Make a generous donation to Save The Bay.** Your support is crucial to protecting our San Francisco Bay.
